

ACCESSIBILITY CHECKLIST BUILD

CODTECH UI/UX Internship

Prepared By: TALLAM HARIKA

Intern ID: CITS2799

Introduction

Accessibility ensures that digital products can be used by people with different abilities. A good accessibility checklist helps designers and developers create inclusive user experiences.

Accessibility Checklist

1. Color Contrast
 - ✓ Ensure sufficient contrast between text and background.
2. Readable Font Size
 - ✓ Use clear and readable font sizes.
3. Alternative Text
 - ✓ Provide alt text for images.
4. Keyboard Navigation
 - ✓ Ensure all features can be accessed using a keyboard.
5. Clear Labels
 - ✓ Use clear labels for buttons and form fields.
6. Responsive Design
 - ✓ Make the interface usable on different screen sizes.
7. Error Messages
 - ✓ Provide clear and understandable error messages.
8. Consistent Navigation
 - ✓ Keep navigation consistent across pages.
9. Accessible Forms
 - ✓ Use proper form labels and instructions.
10. Screen Reader Support
 - ✓ Ensure compatibility with screen readers.

Conclusion

Following accessibility guidelines helps create digital products that are usable by everyone, improving inclusivity and user experience.
